

ZAMBODEZIGNS · PROPOSAL

UNDERGROUND SANCTUARIES

DUBAI

GROUNDX

PRIVATE · MODULAR · UNCOMPROMISING

A brand that makes its mark out of sight.

Brand, AI visuals, web and content — built as one system for the GCC's most private luxury product. This is what I'd build for Ground X, and the work that proves I can.

WHO YOU'RE WORKING WITH

Samuel Heymig — one person, full stack.

A freelancer from Stuttgart helping businesses grow with clean web design, optimized shops, and striking 3D and motion work. I build the whole system: brand, visuals, site, content and the automation behind it.

Web design & development

E-commerce & checkout

3D modeling & rendering

Motion design & animation

AI video generation

AI image / renderings

Branding & identity

Landing pages & copywriting

Dashboards & internal tools

Automation & AI agents

50+ PROJECTS · 96% CLIENT SATISFACTION · 10+ YEARS

WHY ME, FOR THIS

Not a generalist. Someone who has already built **your exact**

How can I help you enter the world.

Ground X needs Dubai fluency, a luxury-security tone, container know-how and a systems mindset. Those four overlap with work I have already delivered.

DUBAI

I already build for the GCC market and its buyers.

LUXURY + SECURITY

Gulf Rescue, Löwenhardt — the exact tone Ground X needs.

CONTAINERS

I have shipped a 3D container configurator already.

SYSTEMS

AETHER and zZzlim prove I run marketing as a system.

WHAT I CAN DO

The full stack of a marketing department, in one person.

Each of these is something I have built and shipped, not a service line on a page.

AI renderings & visual systems

Photoreal interiors and exteriors from a controlled prompt system, not random AI output. Real camera profiles, consistent

3D configurators

Interactive product builders in the browser. Rotate, combine modules, see the result live. Built on React Three Fiber.

Premium websites

Fast, multilingual, conversion-focused sites with cinematic motion. Lead capture, private-consultation flows, RTL-ready.

light, brand-locked.

PROOF

12-prompt master system + enhancer
pipeline built for Ground X

PROOF

Container configurator already shipped
(Next.js + R3F, deployed)

PROOF

Gulf Rescue & Löwenhardt — live
luxury/security sites

AI video production

Cinematic walkthroughs, reels and
timelapses from an AI pipeline. Sound,
motion and grade, not slideshow exports.

PROOF

End-to-end AI video pipeline in production

Social & automation

Content calendars, scheduling, and DM
funnels. ManyChat auto-reply and lead
routing wired to the content plan.

PROOF

ManyChat flows + content-plan system
live on zZzlim

Dashboards & internal tools

Custom dashboards that pull your data
into one view: analytics, pipeline,
performance. The same systems I build
for myself.

PROOF

AETHER operating system + zZzlim
dashboard

Investor pitch decks

Decks that raise: clear story, real
numbers, design that signals a serious
company. From narrative to final layout.

PROOF

Athena and further investor decks
delivered

Branding

Logo, color, type and tone of voice into
one guideline your team can actually use.
Consistent across every surface.

PROOF

Full brand systems across multiple clients

SELECTED WORK

Already built, **already live.**

DUBAI • LUXURY SECURITY

Brand and site for an armored VIP transfer service.
Cinematic 3D vehicle, multilingual, map-driven coverage,
ballistic-spec storytelling.

Same market, same buyer, same discretion as Ground X.

3D animation

AI video

Web design

Branding

Multilingual

Motion

NEXT.JS 16 • REACT THREE FIBER • MAPBOX

ARMORED VEHICLES • PARTNER NETWORK

Production site for an armored-vehicle and VIP-transport partner platform with
a partner ecosystem.

Built trust in the Dubai security/luxury world already.

Container Configurator

3D · PRODUCT BUILDER

Interactive 3D configurator for a container builder. Real GLB models, live interior parts, browser-based.

Ground X sells containers. This already exists.

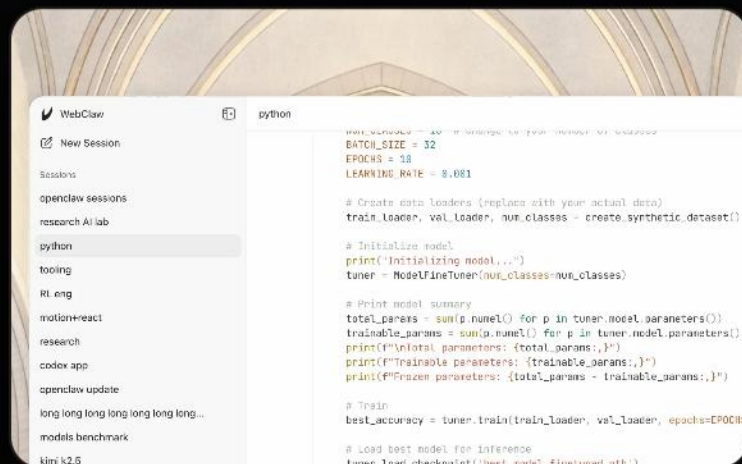

3D / R3F

Web app

NEXT.JS · REACT THREE FIBER · THREE.JS

AETHER + zZzlim

SYSTEMS · AUTOMATION

A personal operating system (AETHER) and a full content/automation dashboard (zZzlim) — proof I build whole systems, not one-offs.

Shows I can run your marketing as a system, not a task list.

Systems

BRAND DIRECTION

How Ground X could feel.

A first taste of the visual language: a gentleman's-club world, not a survival product.
Final brand locks once your assets land.

MOBILE

THE OFFER

Pick how you want to **work together.**

For context: Dubai agencies charge \$3,000–8,000/mo for this scope, and Ground X sells from \$50,000 a module.

- Partnership
- One-time builds
- À la carte

Setup once, then a system that runs every month.

PHASE 1 · ONE-TIME

Setup & foundation

from €3,500

PHASE 2 · MONTHLY

Ongoing partnership

from €1,500 / mo

SOFT START · OPTIONAL

Test month

€1,500 flat

- Brand guidelines finalized
- 10–15 photoreal AI renderings
- Landing page, deployed
- 2–3 marketing videos
- Social template set
- Drive + content calendar

- 15–20 social posts
- 4–6 AI videos
- 3–5 new renderings
- Content calendar & scheduling
- Paid-ads management
- Monthly analytics & optimization

- One month, full output
- No long commitment
- Rolls into the retainer
- De-risks the decision

NEXT STEP

Let's build the first **renderings**.

Samples land first, the offer right behind. Take it to the table with your team, and we start.
