UNDERGROUND SANCTUARIES

DUBAI

GROUND X

PRIVATE · MODULAR · UNCOMPROMISING

A brand that makes its mark out of sight.

Brand, AI visuals, web and content — built as one system for the GCC's most private luxury product. This is what I'd build for Ground X, and the work that proves I can.

WHY ME, FOR THIS

Not a generalist. Someone who has already built **your exact world.**

Ground X needs Dubai fluency, a luxury-security tone, container know-how and a systems mindset. Those four overlap with work I have already delivered.

DUBAI

I already build for the GCC market and its buyers.

LUXURY + SECURITY

Gulf Rescue, Löwenhardt — the exact tone Ground X needs.

CONTAINERS

I have shipped a 3D container configurator already.

SYSTEMS

AETHER and zZzlim prove I run marketing as a system.

WHAT I CAN DO

The full stack of a **marketing department**, in one person.

Each of these is something I have built and shipped, not a service line on a page.

AI renderings & visual systems

Photoreal interiors and exteriors from a controlled prompt system, not random AI output. Real camera profiles, consistent light, brand-locked.

PROOF

12-prompt master system + enhancer pipeline built for Ground X

3D configurators

Interactive product builders in the browser. Rotate, combine modules, see the result live. Built on React Three Fiber.

PROOF

Container configurator already shipped (Next.js + R3F, deployed)

Premium websites

Fast, multilingual, conversion-focused sites with cinematic motion. Lead capture, private-consultation flows, RTL-ready.

PROOF

Gulf Rescue & Löwenhardt — live luxury/security sites

AI video production

Cinematic walkthroughs, reels and timelapses from an AI pipeline. Sound, motion and grade, not slideshow exports.

PROOF

End-to-end AI video pipeline in production

Social & automation

Content calendars, scheduling, and DM funnels. ManyChat auto-reply and lead routing wired to the content plan.

PROOF

ManyChat flows + content-plan system live on zZzlim

Dashboards & internal tools

Custom dashboards that pull your data into one view: analytics, pipeline, performance. The same systems I build for myself.

PROOF

AETHER operating system + zZzlim dashboard

Investor pitch decks

Decks that raise: clear story, real numbers, design that signals a serious company. From narrative to final layout.

PROOF

Athena and further investor decks delivered

Branding

Logo, color, type and tone of voice into one guideline your team can actually use. Consistent across every surface.

PROOF

Full brand systems across multiple clients

SELECTED WORK

Proof, **not promises.**

DUBAI • LUXURY SECURITY

Gulf Rescue

Brand and site for an armored VIP transfer service. Cinematic 3D vehicle, multilingual, map-driven coverage.

Same market, same buyer, same discretion as Ground X.

NEXT.JS 16 • REACT THREE FIBER • MAPBOX

LOEWENHARDT
&
PARTNERS

ARMORED VEHICLES • PARTNER NETWORK

Löwenhardt

Production site for an armored-vehicle and VIP-transport partner platform with a partner ecosystem.

Built trust in the Dubai security/luxury world already.

Container Configurator

3D · PRODUCT BUILDER

Container Configurator

Interactive 3D configurator for a container builder. Real GLB models, live interior parts, browser-based.

Ground X sells containers. This already exists.

SYSTEMS · AUTOMATION

AETHER + zZzlim

A personal operating system (AETHER) and a full content/automation dashboard (zZzlim) — proof I build whole systems, not one-offs.

Shows I can run your marketing as a system, not a task list.

REACT · TYPESCRIPT · AI AGENTS · MANYCHAT

BRAND DIRECTION

How Ground X could feel.

A first taste of the visual language: a gentleman's-club world, not a survival product.
Final brand locks once your assets land.

GROUND X

Cognac leather

Dark walnut

Tailored suits

Dark leather

DISCREET. MODULAR. UNCOMPROMISING.

Twilight & warm light

Brushed gold

Villa, never isolated

Discreet, never loud

THE OFFER

A setup that lasts, then a **system that runs.**

For context: Dubai agencies charge \$3,000–8,000/mo for this scope, and Ground X sells from \$50,000 a module.
